EXPERIENCE

Deloitte, *Intern Software Engineer*   Jan 2022 | Feb 2022
Brisbane, AU

- Worked in the Deloitte Consulting – Platform Engineering Team
- Helped to develop an AI and chaos engineering offering with the aim of increasing the resiliency of client's systems. Utilised Gremlin, MSFT anomaly detection, and serverless compute.
- Built Azure ARM templates and managed the deployment of resources.

1ICT, *IT Technician*   Nov 2021 | Present
Brisbane, AU

- Delivered hardware solutions to clients in retail and education.
- Worked with the team to deliver managed services solutions in Azure.
- Maintained a device management database for a national client.

Sole Trader, *Tutor*   Jan 2018 | Dec 2021
Brisbane

- Tutored high-school and university students in math, science and English.
- Leveraged knowledge from BE and BS to challenge students with advanced concepts.
- Help a student gain entry into competitive academy by developing good habits in and outside of the classroom.

SKILLS

Technologies: Java, C, Python, HTML & CSS, React, JavaScript, SQL, AZ900
Hobbies: BJJ (Blue), Judo (Green), Running

PROJECTS

SIG Algothon 2021 Finalist, *Python, sklearn*
Implemented a competitive trading strategy to optimize returns off several financial instruments. Utilized a python-based algorithm to back test the strategies and to optimize position sizing.

Retroactive, *Java, Agile*
Lead a team that worked on UX/UI design and implementation for a Java based game. The game featured in the UQ ITEE innovation showcase.
